## PRODUCT AND ORDER INFORMATION

- 1 Frame: **Beech wooden construction**
- 2 Supporting spring system seat: **flexible upholstery straps**
- 3 Upholstery structure seat: **highly elastic CFC-free cold cure foam (density 35 kg/m<sup>3</sup>) with soft cushioned compartment pad filled with visco flakes and silicone mix.**
- 4 Back cushion composition: **loose cushions with high-quality Visco foam filling**
- 5 Foot: **Metal foot / height: 17 cm**

## GOOD TO KNOW

Cover: **Single-colour fabric and leather**

Metal foot available in:

B  
mat black

C  
chrome

## PURCHASE PRICE AND TYPE LIST

# Specifics Gianni

## UPHOLSTERY STRUCTURE

The seat of this model is padded with a combination of top-quality CFC-free cold cure foams with at least 30 kg/m<sup>3</sup> density and a CFC-free highly soft foam pad. To achieve optimal sitting comfort, we use a filling made of highly elastic foam material and soft foam sticks in the back of this model.

## WAVE FORMATION

Forming waves is a typical feature of this model. This is caused by the different qualities of the cover materials and the way in which fabric and leather respond to the impacts of everyday life. Body heat, weight and humidity have different effects on the materials, which is why the wave formation is a natural response of more casual models.

## COVERED BACK SECTIONS

The elements are always covered in the same fabric in the back and thus offer many possibilities to position the model.

## LEATHER AND FABRIC PROCESSING

Due to the different qualities of the fabrics, it is possible that the decorative, double and fell seams either vary or are left out altogether. This depends, among other things, on the fabric width, which can render the parting of the back unnecessary and allow a simple seam to replace the decorative seam.

## COLOUR DEVIATIONS

Please note that natural materials such as leather and wood are as individual in their structure and colour as nature itself. We make every effort to provide you with an item that is as close as possible to the colour sample. However, please excuse that the colour of delivered items may vary, which does not constitute a defect.

## RESERVATION

We reserve the right to improve products and their quality if technological progress so demands or if this contributes to maintain delivery capacity. The same applies to the correction of faulty details.
